

Made by E

Good design makes a statement, and that's what sets Elliot apart. His mediums are as bold as his message. Loud, proud, no limits allowed - these are what define anything Made by E.

WORK WITH E

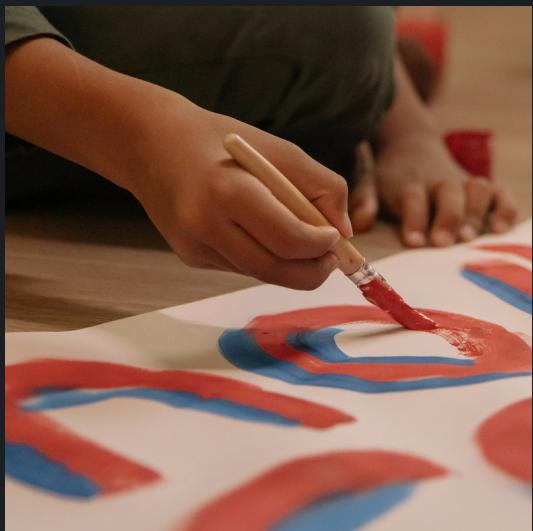

HI, I'M E.

I design with purpose.

The medium is the message, but the message also defines the medium. I am constantly experimenting with both, without limits or restrictions. My only rule: Create only when there's something to say.

My art is my statement, and always will be.

What I do

Poster Design

My posters capture attention with bold graphics, punchy text and on-brand visuals.

Custom Painting

My mini murals turn blank spaces into visual messages that speak volumes.

Mural Design

Make them see! I create visual smorgasbords of color and images made larger than life.

Typography

The medium is the message. Capture it all through inventive type.
